Swivel castor with wheel locking brake:

36307 - MM 125 OEIL (Mallmaster)

Technical data

Diameter		125 mm
Tread width		30 mm
Height		155 mm
Offset		40 mm
Bolt hole diameter		12 mm
Load capacity		60 kg

Technical description

Sheet steel housing
galvanised-passivated
Swivel bearing with double-row ball race
Also available with another fitting options

REACH compliant RoHS compliant

Wheel

Polyamide differential wheel with polyurethane tyre
Hard rubber brake ring
Ball bearing
