Swivel castor:

367a 51C ZLD

Technical data

Diameter		125 mm
Tread width		32 mm
Height		155,5 mm
Offset		43,5 mm
Bolt hole diameter		12,2 mm
Load capacity		100 kg
Weight		701 g

Technical description

- sheet steel metal housing
- zinc passivated
- swivel bearing with double ball race
- protected from dust and water spray with plastic seal
- available with plate PD (77x67 mm) and PF (95x70 mm)
- available with bolt hole LC (10,2 mm) and LD (12,2 mm)
- on inquiry also available with fixing pin Z522 (24x45 mm) and Z622 (28x45 mm)

REACH compliant RoHS compliant

Wheel

- TPE tread (Shore A 87)
- polypropylene wheel body
- thread guard
- ball bearing
- non-oiling
- on request further variants available
